

Remote Sensing/SAR Satellite Imagery Analysis and Utilization System using Deep Learning Model

Youngman Cho

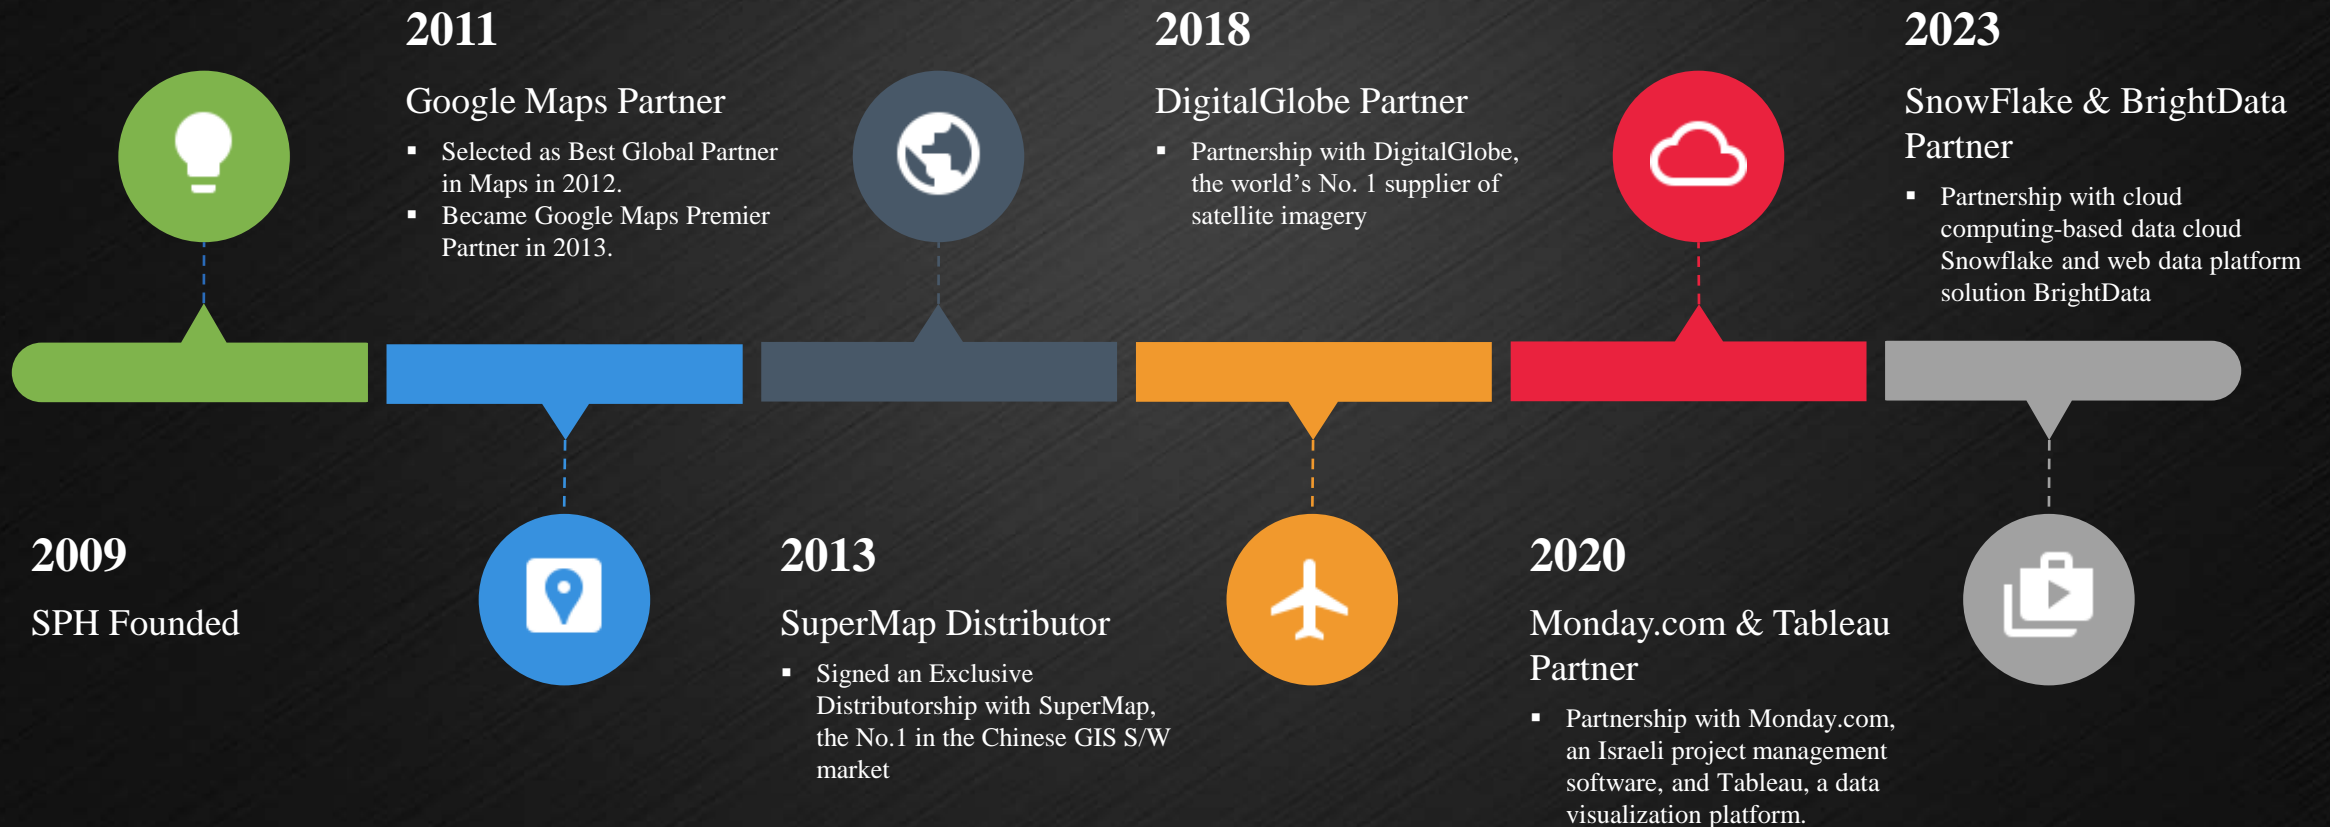

SPH,Inc. / General Sales manager

Jun 28, 2023

1

SPH Overview

“Making a Story of Human and Place with Technology.”

SPH History

Provided various Business Systems using SuperMap to Government, Business, R&D industry

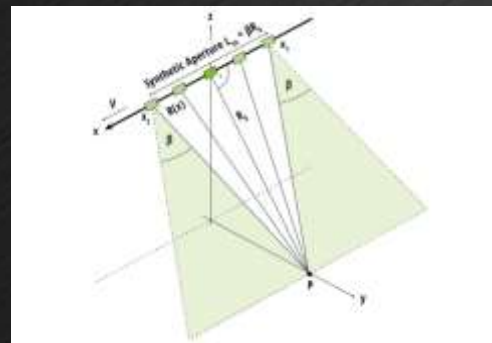

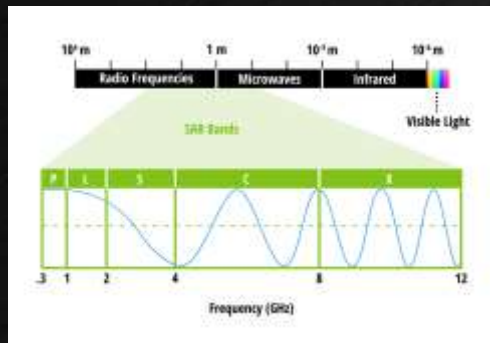

2

Remote Sensing/SAR Satellite Imagery Analysis

SAR Imagery

SAR (Synthetic Aperture Radar)

An active electromagnetic wave radar sensor that obtains imagery information using microwaves

RGB imagery

SAR imagery

Satellite Imagery Analysis & Utilization System

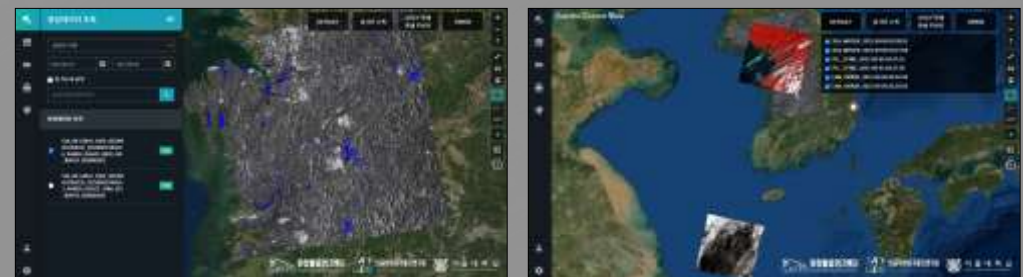

- Remote Sensing/SAR Satellite Imagery Analysis using Deep Learning
- Remote Sensing Imagery Display system for visualization of massive data

Remote sensing/SAR satellite Imagery Analysis and Utilization System

Remote Sensing/SAR Satellite AI Web Service

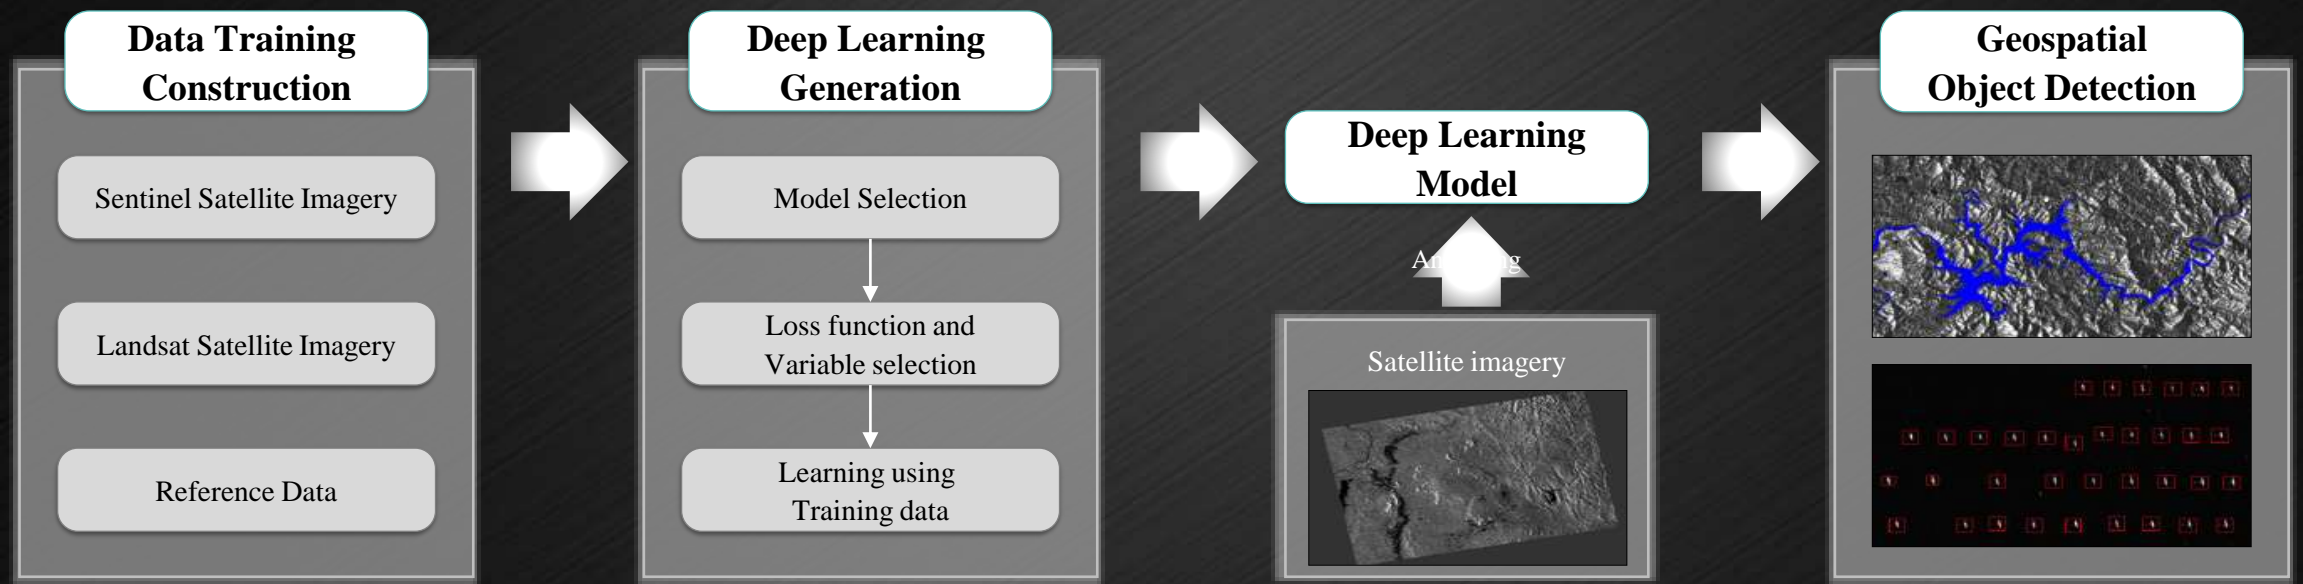

Analyzed Satellite Imagery Utilization Service

Satellite Imagery Analysis & Utilization System

Example of a general process for Deep Learning model generation for Remote sensing/SAR imagery analysis

Satellite Imagery Analysis & Utilization System

Geospatial Object Detection (10types) + Analytical Model (3types)

Satellite Imagery Analysis & Utilization System

Examples of Geospatial Object Detection, Analyzed Model Utilization

Ship Detection

- Control of illegal fishing
- Monitoring marine pollution, such as oil spills.

Vehicle Detection

- Used for marketing and research materials.

Building Detection

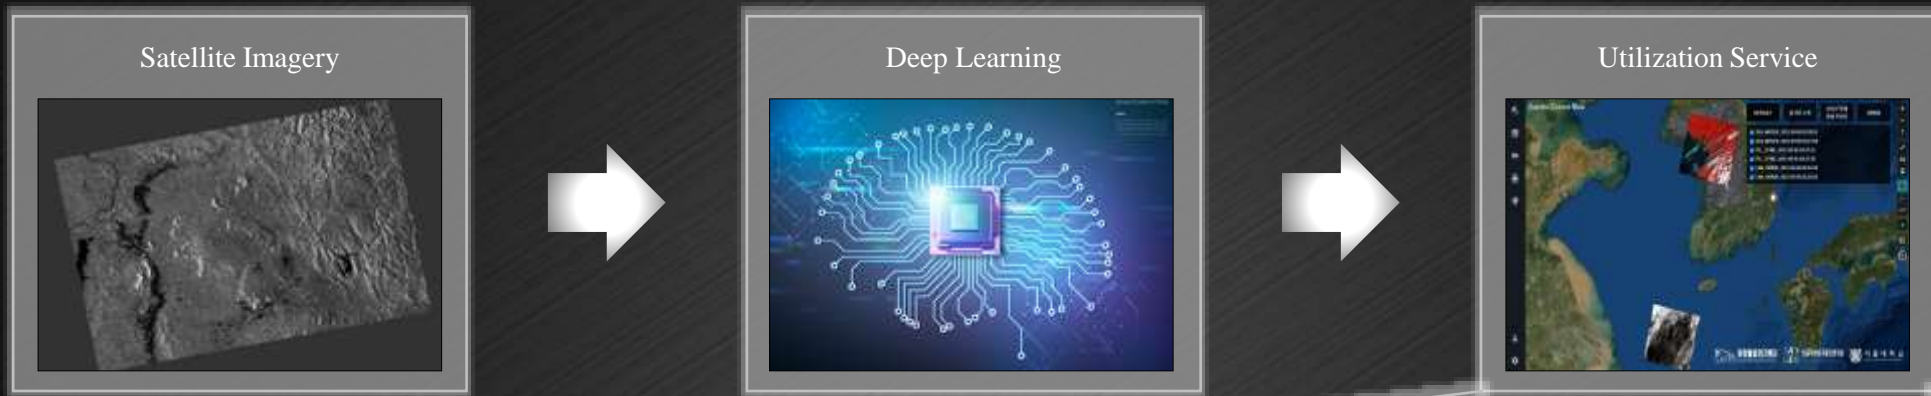

- Monitoring the progress of large-scale construction works.
- Prevention of illegal land or construction use.

Natural Disaster Analysis

- Analysis of the size of the damaged area due to natural disasters.

Satellite Imagery Analysis & Utilization System

Technologies used

Key Function

Satellite Imagery Data Visualization

Weather Data Visualization

Imagery Data Analysis Visualization

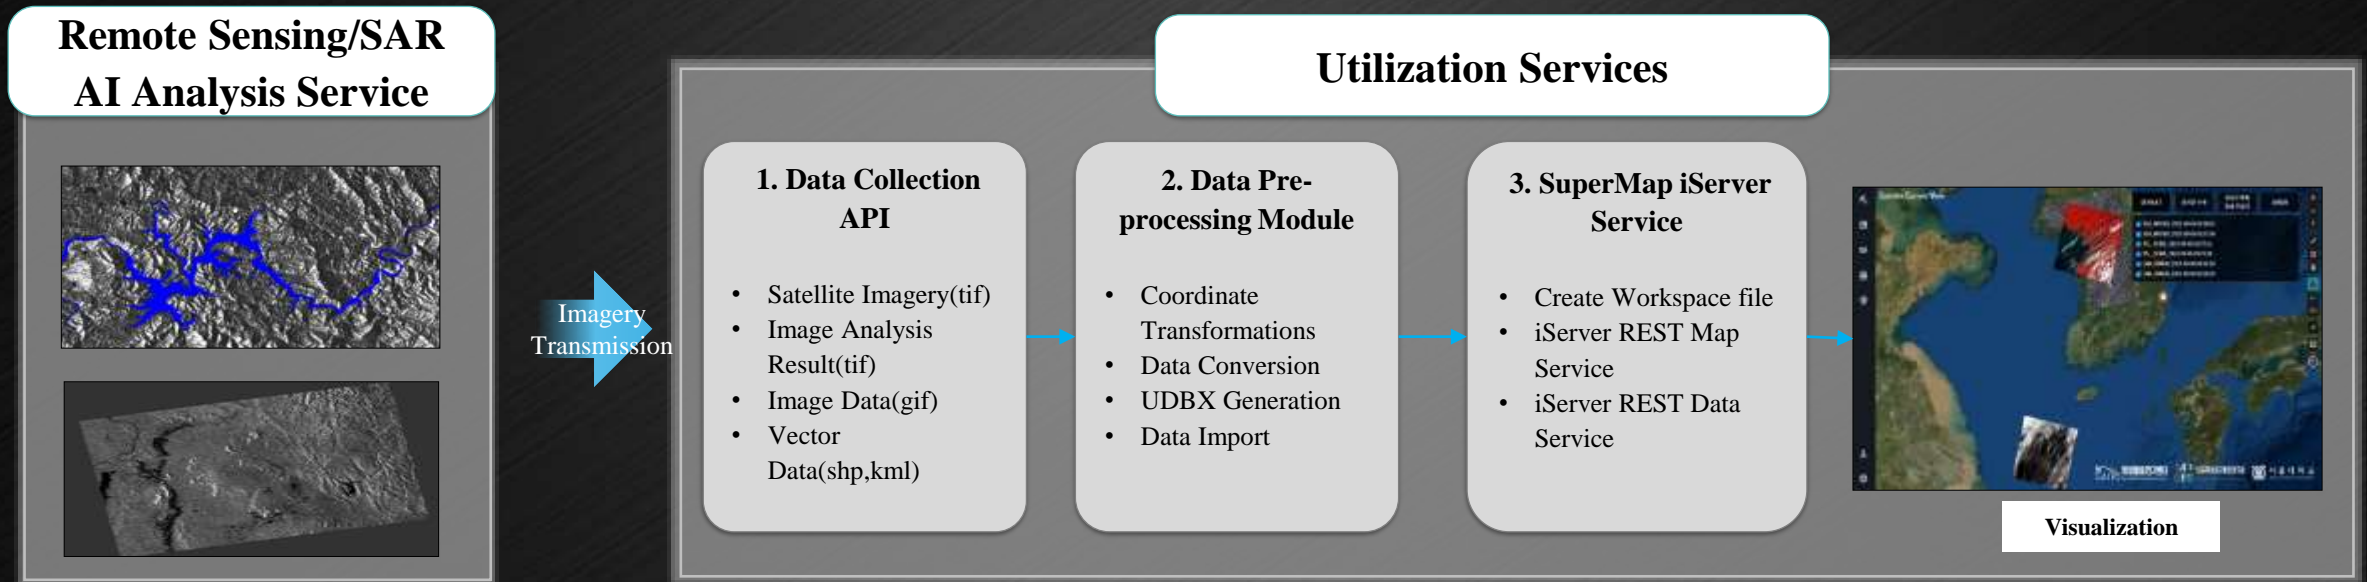

AIS Data Visualization

GIS Data Visualization

User Management

Satellite Imagery Analysis & Utilization System

Example of a general process for Visualization of Satellite Imagery Analysis Data using SuperMap

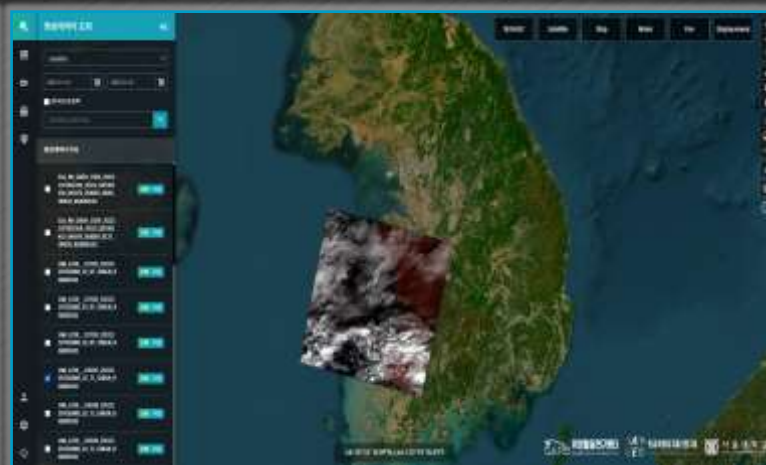

Satellite Imagery Analysis & Utilization System

Visualization of Remote Sensing/SAR Imagery with location information and distortion correction

Satellite Imagery Data Visualization

Sentinel S1A Satellite

Landsat 8 Satellite

Himawari 8 Satellite

Satellite Imagery Analysis & Utilization System

Visualization of the Spatial Object Detection of Remote Sensing/SAR Imagery analyzed

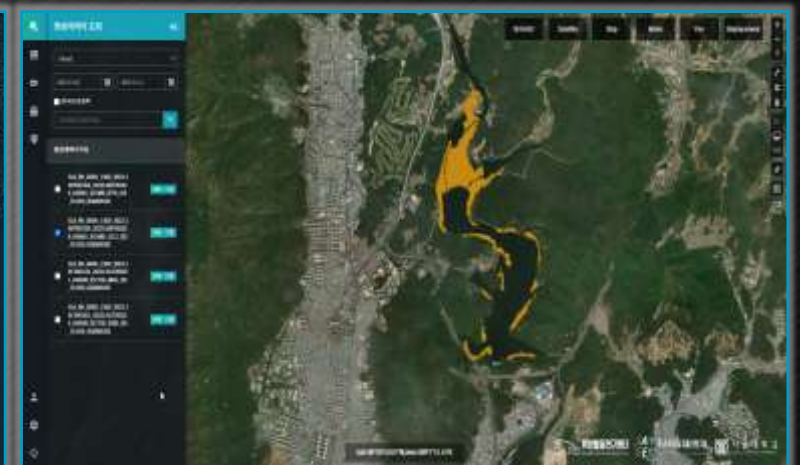

Imagery Data Analysis Visualization

Ship

Water

Flood

Satellite Imagery Analysis & Utilization System

Visualization of GIS data using Public Open Data and SuperMap iServer REST API

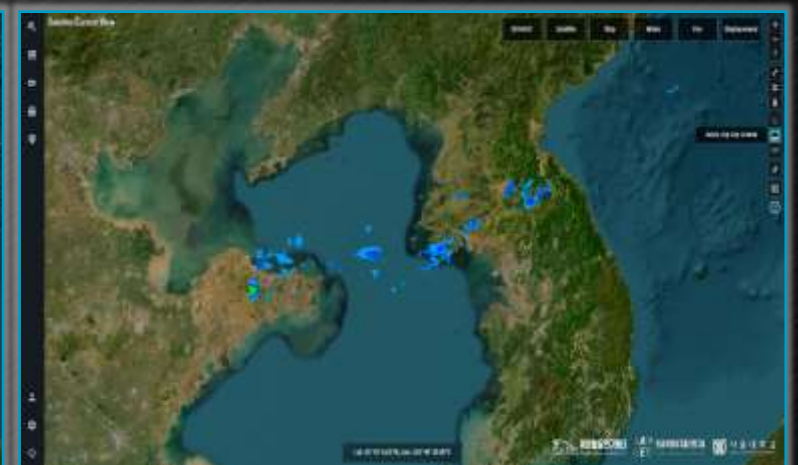

GIS Data Visualization

Open API - River

Open API - Landslide

Open API - Weather

Satellite Imagery Analysis & Utilization System

Visualization of Automatic Identification System (AIS) updated every 5 minutes

AIS Data Visualization

Real-time ship location

Ship Information

Ship Search

Satellite Imagery Analysis & Utilization System

Provided various Background Maps

Various Map Background

V-World(KOR)

Open Street Map

Global Satellite Imagery

Satellite Imagery Analysis & Utilization System

Provided functions that only administrators can use

Administrator Section

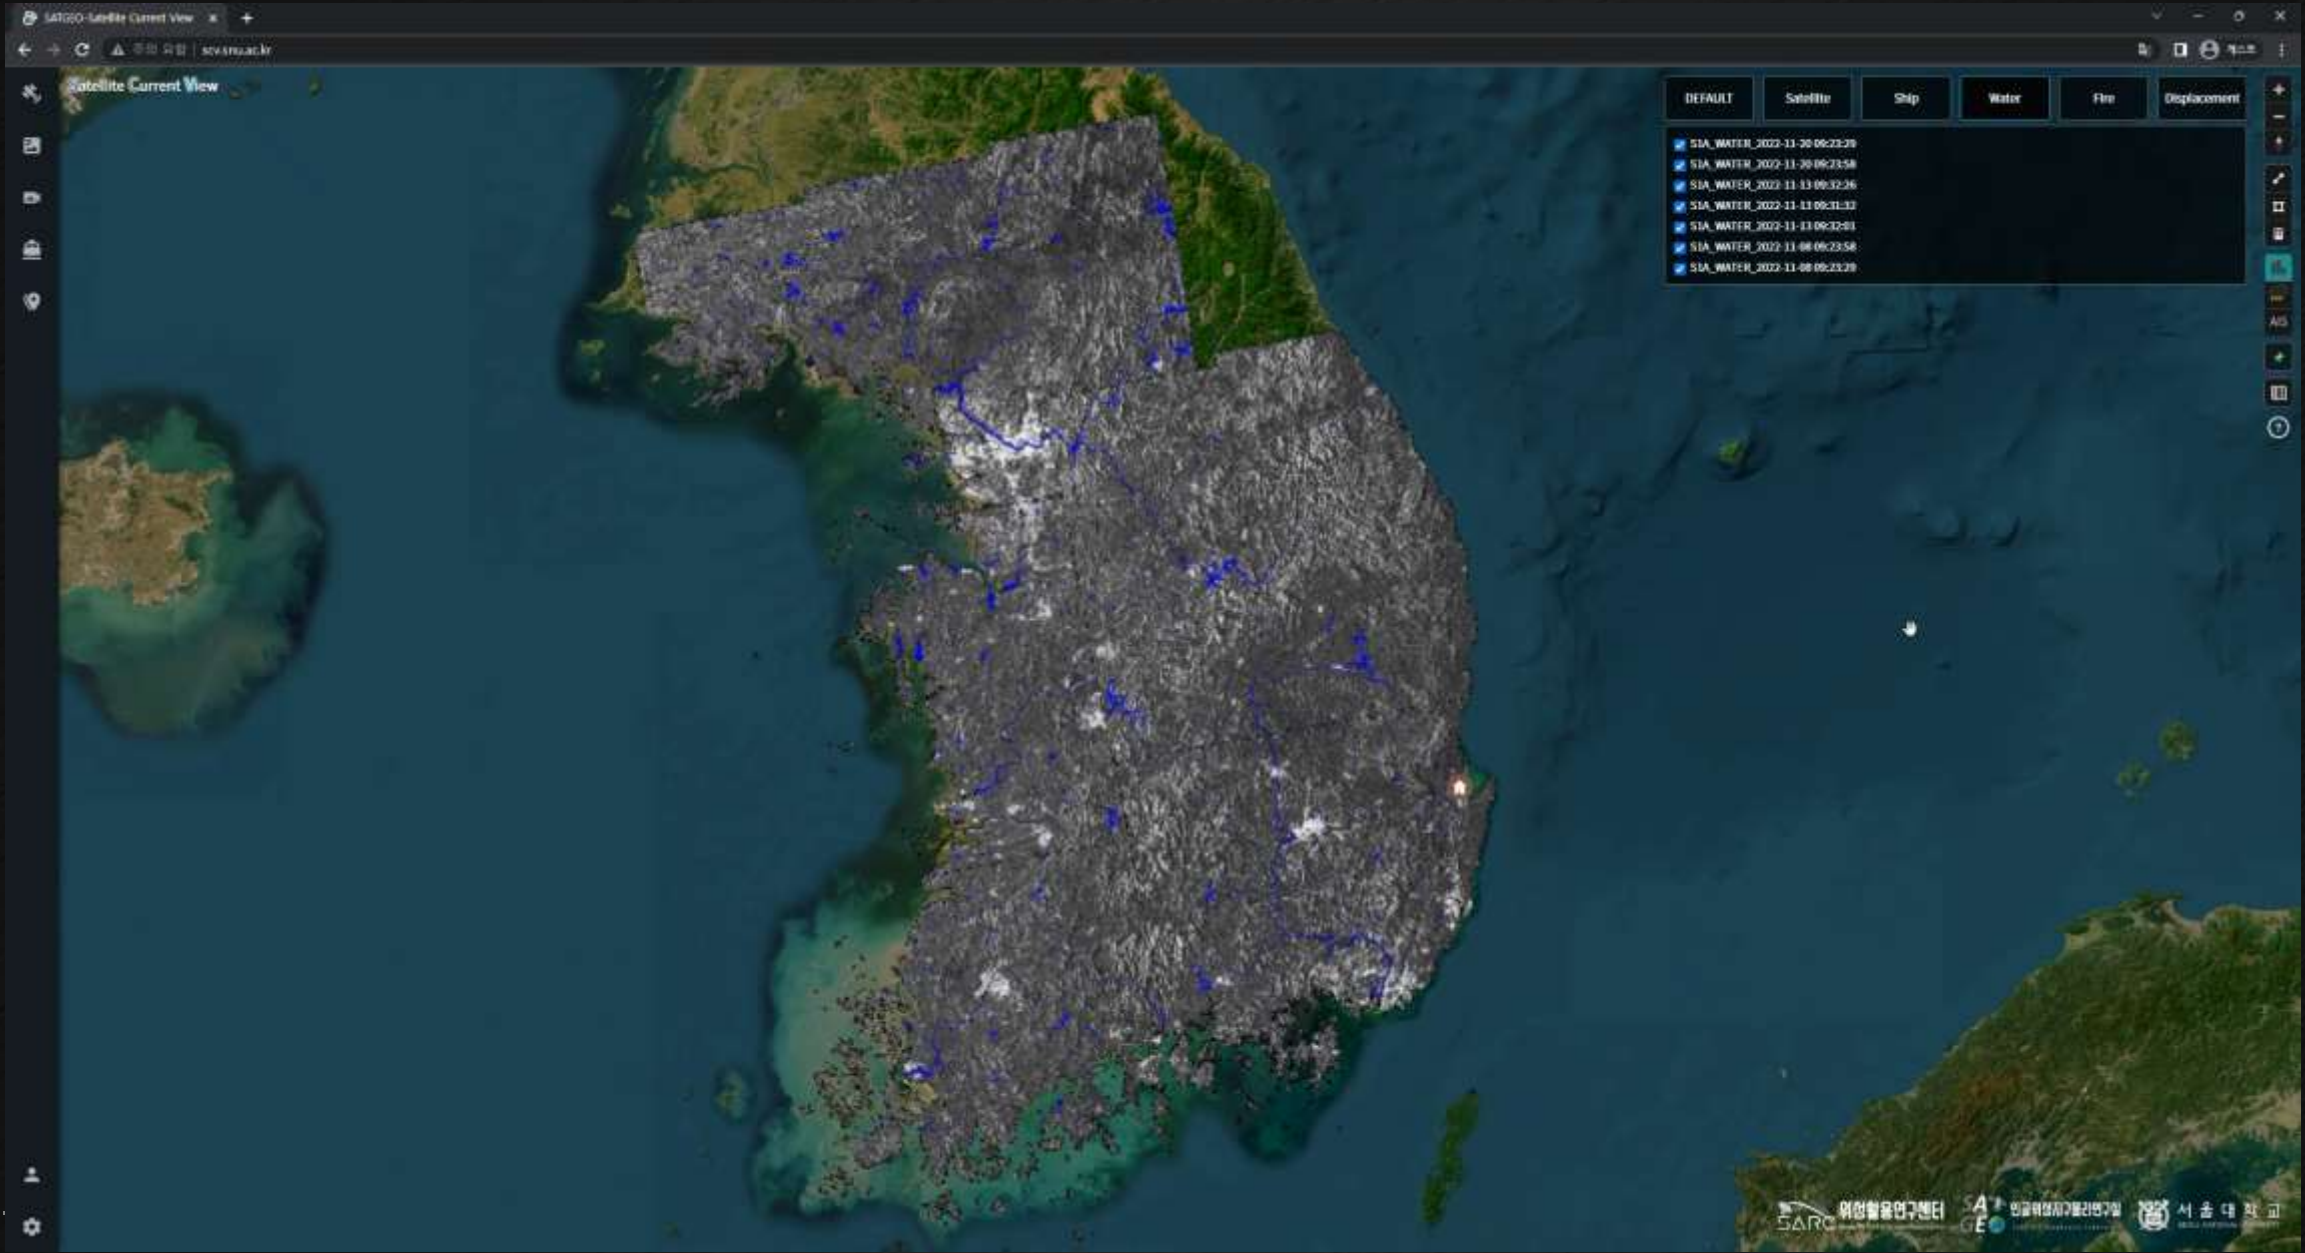

User Management

Data Deletion

Spatial Object Detection

Thank You All!
